Madam/Sir:

This is a response to the Office Action in the above identified patent application.

1. The Examiner rejects claims 1 - 24 under 35 U.S.C. 102 (b) as being anticipated by Sekino in U.S. Patent No. 5,225,775.

The Applicant has analyzed the arguments presented by the Examiner and respectfully disagrees in that the invention as claimed in claims 1 - 24 is not new in view of Sekino. The Applicant presents also a set of amended claims.
